

FutureSafe Head & Backrest / Seatbelt Anchorage

Height adjustable head and backrest with an integrated certified shoulder belt. With two quick movements, the system locks behind the wheelchair passenger / driver to provide maximum security.

About AMF-Brunns

For more than 60 years, AMF-Brunns has manufactured wheelchair and occupant securements for the safe transportation of people with limited mobility. We invented the first 4-point retractor wheelchair anchoring system. Today we service customers in more than 50 countries.

Features

- Allows wheelchair passenger / driver with upper extremity issues to travel safely.
- Turns inward towards the vehicle wall when the vehicle is without a wheelchair. A single seat can easily be fitted to the empty position.
- Can withstand 15G rear and 20G frontal collisions.
- Crash and sled tests clearly show the highest level of safety in a rear impact.
- Emergency release.
- Meets all applicable regulations.
